Pasidu.Mihiranga

Pasidu-Mihiranga

Portfolio

SUMMARY

Information Technology undergraduate focused on AI, Machine Learning, Full-Stack, and Cloud-Native Development. **Seeking internship opportunities in AI Engineering, Machine Learning Engineering, Applied AI Development.** Built and deployed projects involving large language models, computer vision, microservices, distributed systems, and modern web technologies. Additionally interested in **DevOps Engineering, Full-Stack Development, Game Development, Backend Systems, and Mobile Application Development.** Passionate about building scalable, intelligent, and impactful software solutions.

EDUCATION

University of Moratuwa

Bachelor of Science (Hons) in Information Technology

2023 – Present

CGPA - 3.71/4.0

Richmond College, Galle

G.C.E. Advanced Level - Physical Science Stream

Physics: A – Chemistry: A – Combined Mathematics: B

2022

Richmond College, Galle

G.C.E. Ordinary Level

9 A Passes including Mathematics, Science and English

2019

PROJECTS

Quizzly Master (Live) [Click to View](#)

2026

- Developed an AI-powered quiz generation platform that automates quiz creation and assessment workflows, reducing manual content preparation effort through 3 integrated AI providers, role-based access control, guest authentication, and secure JWT-based user management.
- Stack:** React, Node.js, Express.js, MongoDB, OpenAI API, Gemini API, Claude API

Purawasi [Click to View](#)

2026

- Built a voice-first multi-agent AI platform leveraging 20+ specialized agents to automate government service discovery, eligibility verification, document processing, workflow guidance, and citizen assistance in Sinhala, Tamil, and English.
- Designed a scalable LangGraph orchestration architecture with supervisor-based agent routing, hybrid RAG retrieval, OCR-powered document intelligence, cross-lingual memory, real-time web research, and community-driven knowledge enrichment while maintaining privacy through PII masking and RBAC.
- Stack:** Python, FastAPI, LangGraph, Gemini 2.5 Flash, Llama 3.3 70B, Qdrant, PostgreSQL, React, React Native, TypeScript, Tesseract OCR, LiveKit, Whisper, Redis, Langfuse

FaceID Recognition [Click to View](#)

2025

- Developed an AI-powered facial recognition system with anti-spoofing detection, achieving over 88% recognition accuracy while improving authentication security beyond traditional password-based and image-based verification methods through 3 integrated computer vision modules.
- Stack:** Python, OpenCV, Deep Learning, NumPy

Drug Classifier [Click to View](#)

2025

- Developed machine learning models for drug-category prediction, achieving over 90% classification accuracy by evaluating multiple models including Random Forest, XGBoost, LightGBM, and ensemble approaches.
- Stack:** Python, Scikit-Learn, Pandas, NumPy

Piyoway Tourist Guide (Live) [Click to View](#)

2026

- Built a tourism management platform that consolidates destination discovery, itinerary planning, reviews, and listings into a single system, replacing fragmented travel information sources through 4 user roles, administrative dashboards, cloud-based media management, and a PWA-enabled architecture.
- Stack:** Next.js, TypeScript, NestJS, PostgreSQL, Prisma, Tailwind CSS, Docker, Nginx, Cloudinary

Auditra [Click to View](#)

2026

- Developed an Audit Valuation ERP platform with 10+ operational modules and 8 user roles, replacing fragmented spreadsheet-based audit workflows with a centralized system for compliance, risk assessment, and valuation management.
- Stack:** Flutter, Django, PostgreSQL, REST API

ShinnyMinds [Click to View](#)

2026

- Built a 3D exploration game featuring custom character movement, animation systems, and environment interactions, demonstrating real-world game development workflows using Unity and Blender through 4 major gameplay systems.
- Stack:** Unity, C#, Blender

EXPERIENCE

Co-Founder - Gmora

Feb 2026 – Present

University Student Software Startup

- Co-founded a student-led software startup, contributing to full-stack application development, software architecture, technical decision-making, project planning, and collaboration on hackathons and client-oriented software projects.

Group Leader - Second Year Software Development Project

2026

University of Moratuwa

- Managed project planning, software development activities and team coordination for a large-scale software project.

Group Leader - First Year Microcontroller Hardware Project

2025

University of Moratuwa

- Led a multidisciplinary team in designing and developing a microcontroller-based hardware project.

Design Pillar Member

2024 – 2025

Mathematics Society, University of Moratuwa

- Active member of the Design Pillar and contributed to society activities and event branding.

AWARDS & ACHIEVEMENTS

Champion

- **BITCode 2026** – Hackathon and Coding Contest, Department of Information Systems, Faculty of Management Studies, Rajarata University of Sri Lanka
- **InnovateX Hackathon 2025**, Team Gmora, Organized by Zebra Technologies

Second Runner-Up

- **AlgoArena 2025**, Team Gmora, Leo Club of University of Sri Jayewardenepura

6th Place

- **JapuraXtreme 2025**, Team TrippleBoot, University of Sri Jayewardenepura

Finalist

- **GenZipher 2026** CTF, University of Colombo School of Computing
- **HaXtreme 2025** 4.0, Team Gmora, University of Ruhuna
- **BioFusion 2025**, Team Gmora, University of Sri Jayewardenepura
- **CrptX 2026**, Faculty of Technology, University of Sri Jayewardenepura

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, JavaScript, PHP, C#

Web Development: HTML, CSS, React.js, Next.js, Node.js, Express.js, Spring Boot, MongoDB, SQL, PostgreSQL

Mobile App Development: Flutter, React Native, Kotlin

Game Development: Unity Game Engine

Design Software: Adobe Photoshop, Canva, Adobe Illustrator, Figma

Operating Systems: Windows 11, Ubuntu/Linux

Languages: Sinhala (Native), English (Fluent)

Leadership & Communication: Event Management, Public Speaking, Team Leadership, Demonstrating

CERTIFICATIONS

- CGMA Finance Leadership Program (FLP – CIMA) – AICPA & CIMA (2024 – Present)
- Python Programming Course – SITEC (2023)
- Java Programming Course – SITEC (2023)
- Web Development Course – SITEC (2023)
- Python for Beginners & Web Design for Beginners – University of Moratuwa (2023)
- Cambridge Key English Test (KET) – Cambridge Assessment English (2018)

ADDITIONAL PARTICIPATION

- Hackathons & Challenges: ENIGMA 2024, CODERUSH 2024, MoraXtreme 2025, HaXtreme 2025, SpiritX 2025, Devthon 2025, SLIOT Challenge 2025, IDEALIZE 2025, APIIT Hackathon 2025, ProxyMaze'26

EXTRA CURRICULAR ACTIVITIES

- Swimming, Table Tennis, Badminton, Drawing
